

# Are you considering A FLOORING UPGRADE?

Extend the service life of your new and existing floors.

Protect surfaces against degradation from cleaning chemicals, mechanical wear and product spillage.

Reduce your cleaning and maintenance costs immediately.

Provide a safer, brighter and more efficient working environment for staff.

## Dairy

Dairy Farmers – 5+ plants  
National Foods – Welshpool  
Parmalat – Southbank, Sunshine Coast  
Bega Cheese – Bega  
Warnambool Cheese & Butter – Warnambool  
Hellenic Cheese – Thomastown  
Perfection Dairies – Baulkham Hills

## Snack Foods & Confectionary

Cadbury – Heathmont  
Nestles – Fiji, Campbellfield, Gympie  
Smiths – Smithfield, Cannon Hill  
Wrigleys – Asquith  
Uncle Tobys – Wahgunyah  
Arnotts – Huntingwood, Virginia  
Lindt Chocolates – Botany  
Real McCoy – Blacktown

## Bakeries

Goodman Fielder – PNG, Greenacre  
Michel's Patisserie – Capalaba  
Chalet Patisserie – Wacol  
Tasty Pies – Woolloongabba  
Sara Lee – Noble Park

# PROJECT HISTORY

## Beverages

Carlton United Breweries – Ultimo  
Tooheys – Lidcombe, Grafton  
Fosters Spirit Division – Botany, Campbelltown  
Brown Bros – Milawa  
De Bortolis – Griffith  
Domaine Chandon – Yarra Ranges  
Diageo – Huntingwood  
Poets Corner – Mudgee  
Chateau Tahbilk – Shepparton  
Berri Fruit Juices – Murarrie, Berri  
Nudie Juices – Pagewood  
Coca-Cola – Rock Lea  
Orchy – Capalaba  
Tropico Juices – Palmwood, Nambour  
Bundaberg Brewed Drinks – Bundaberg

## Food Preparation

Alpha Flight Services – Sydney, Canberra, Gold Coast, Perth, Adelaide, Melbourne, Brisbane  
Mrs Crockets Kitchens – Lytton  
Simplot – Shepparton  
Ardmona – Shepparton  
Hakka – Silverwater

## Meat & Seafood

Hans Smallgoods – Colmslie, Lytton  
Dons Smallgoods – Altona  
Castle Bacon – Castlemaine  
Brismeat – Ipswich  
Raptis Seafoods – Redcliffe  
Sydney Fish Markets – Pyrmont  
B.E. Campbell – Wetherill Park  
Orange City Beef – Orange

## Poultry

Inghams – Boonah, Hoxton Park  
Steggles – Marsden Park, Griffith, Beresfield, Ipswich  
Baiada – Toongabbie, Yatala, Tamworth  
Red Lea – Blacktown  
Golden Cockerill – Mt Cotton  
Cordina – Girraween

# HYCHEM provide customised HIGH QUALITY RESIN SYSTEMS to satisfy all flooring applications in the FOOD AND BEVERAGE INDUSTRY

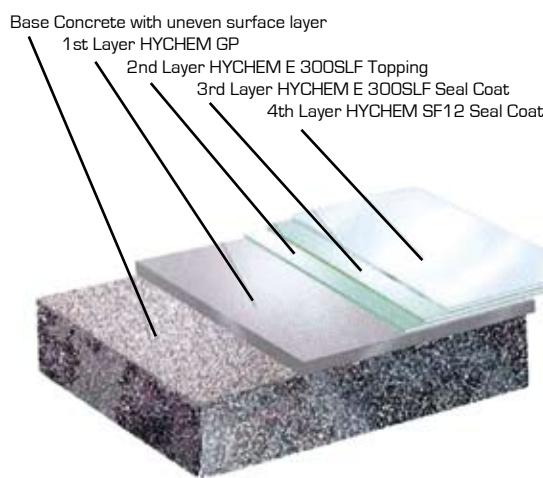

HYCHEM has developed a number of systems designed for use in food and beverage premises, each differing to meet the specific needs of the situation. The individual requirements depend on the current condition of the floor and the amount of harsh cleaning chemicals and product spillage to which the floor will be subjected.

Each system is moulded around a basic formula, however the particular technology varies between epoxy, methacrylate and polyurethane.

EPOXY has high chemical and wear resistance and is suitable for the majority of applications.

METHACRYLATE is used where speed and minimal application time is most important.

POLYURETHANE CONCRETE is used in situations where boiling water and organic acids are a major concern.

## EPOXY, POLYURETHANE & METHACRYLATE FLOORS ARE:

- Hygienic - impermeable & antibacterial
- Dust free - completely seals & protects concrete surfaces
- Seamless - no welded joints or grout lines where bacteria can form
- Heavy duty - Premium abrasion & impact resistance
- Chemically resistant - to acids, solvents, caustics, hot fats & oils, cleaning chemicals
- Attractive - available in almost any colour
- Anti-slip - variety of textures to conform to Australian standards

## TYPICAL EPOXY SYSTEM

1. Concrete Preparation - Concrete is cleaned using detergent and steam cleaning. It is then roughened by either shotblasting or diamond grinding techniques.
2. Roughened concrete surface is then levelled using HYCHEM GP. This epoxy is used as a general purpose base coat prior to coating with a specific surface finish.
3. HYCHEM E300SLF is then applied to the base coat. This provides ultra high fat resistance with a fast cure speed.
4. Final coat of HYCHEM SF12 is applied. This adds superior chemical resistance and provides an abrasion and corrosion resistant finish.
