Grey STC 406

Grey Stone 423

Khaki STC 410

Natural Stone 415

Ocean STC 401

Quartz Stone 418

Real Stone 416

Rivergum STC 405

Sand STC 411

### PLEASE NOTE

The colour swatches give a guide to colours that are generally available from HYCHEM. The colours are only approximate, due to the inherent difference between the printing process and the actual colour.

It is the responsibility of the purchaser to approve the actual colour to be supplied. HYCHEM will also manufacture epoxy pigments of other colours against firm order.

The use of non-epoxy retail and industrial pigments is theoretically possible. The use of epoxy pigments is however recommended wherever water or chemical resistance is an important issue. Universal paint pigments will destroy water resistance and can cause compatibility problems.

Industrial paint pigments can seriously affect the chemical resistance of any epoxy coating to which they are added.
